Good morning Diane. I was able to reach out to one of the centers requesting and get a quick reply.  
One type is workers comp, related to hiring more staff, or medical malpractice.

Does that help?

One last clarification, when referring to insurance costs you are talking about insurance for the facility (like fire, etc) correct? I'm seeking clarification and will let you know asap!

Good Morning!  
Happy to clarify.

Question #1. Yes, in order for LRG to manage the budget the legislature designates, we would like to have the ability to work with the Grant Review Committee to award more funds (up to the allowed 85% of previous year's revenue) to a center who qualifies. Most of our centers are not asking for the full amount they could receive and because we don't know how much they will ask for, we have no way of fully managing the available funding.

Question #2. Is clinic insurance an eligible item? It is not specified anywhere and I know it is probably easier to say what is NOT allowed, than what IS. For example - Increased Clinic insurances associated with clinic personnel.

Does that help? We meet tomorrow at 1 with Review Committee.

Thank you!

I'm going to have to request additional guidance but first wanted to clarify.

1. Can the award committee award more funds than requested? Does this mean they are eligible for more funds but only requested a portion of the eligible amount?
2. What is meant in the second question, is insurance an eligible expense for the grant to cover? Please give me a little more detail about what insurance, who does it cover?

Hi Diane,

We are almost there. Review Committee Meeting the 14th to review.

1. Can the Grant Review Committee award more funds than requested for qualified programs/centers? (We don't see another way to budget use of funds when we open applications.)

2. Is insurance an eligible expense for the grant to cover?
